Tavallds Guide to Health" sent free-Consulation free Dr. Kilmer & Co., Binghamton, N. Y.

Absolutely Free.

In order to introduce the American Spectator into the homes of every intelligent working man of America, and believing that when once seen it will prove indispensable, the publishers make the following unparralleled offer: Any reader of this paper who sends his name and address during the next thirty days will receive the American Spectator for the next two months free. Of the Spectator the popular poet and veteran reformer, James C. Clark, writes: "It fairly shines and throbs with intelligence and heart, that rare combination seldom feund in equally popular publications. It is also so remarkably cheap that it ought to have a circulation of 500,000 and will when the laboring people become aware of its existence." Remember, any reader who sends his name and address within the next thirty days address within the next thirty days will receive the Spectator for two months free. Address Arena Publishing Co., Boston, Mass.

A woman belonging to the Presbyterian church at Far Rockaway, N. Y., has been excommunicated because-among other indiscretions-she wore a bathing suit which was too diminutive for propriety.

Bucklen's Arnica Salve.

The best salve in the world for cuts, bruises, sores, ulcers, salt rheum, fever sores, tetter, chapped hands, chilblains, corns and all skin eruptions, and positively cures piles, or no pay required. It is guaranteed to give perfect satisfaction, or money refunded. Price 25 cents per box. For sale by Seybert & Co.

Senor Galdoa, a rising novelist, is, we are told,"a modest and retiring man, very fond of hemming handkerchiefs on a sewing machine when not engaged in writing."

WE CAN AND DO

Guarantee Dr. Acker's Blood Elixis, for it has been fully demonstrated to the people of this county that it is superior to all other preparations for blood di cases. It is a positive cure for syphilitic poisoning, Ulcers, Eruptions and Pimples. It purifies the whole system and thoroughly builds up the constitution.

Mrs. Dr. Paxton was elected mayor of Kiowa, Kan., last week and in fortyeight honrs after the polls closed not a glass of beer could be had in the town.

Scotch Little Liver Pills

Never nauseate, never gripe. Cure headache, biliousness, vertigo, and a specific for constipation.

25 cents per box. Scotch Sarsaparilla, 50 cents per bottle,

Sold by all druggists.

A Lancastor (Pa.,) man recently re ceived \$50 through the mail, with a letter stating that it was stolen from him forty years age.

Consumption Surely Cured. To THE EDITOR:—Please inform your reeders that I have a positive remedy for the above-named disease. By its timely use thousands of hopeless class have been permanently cured. I shall be glad to send two bottles of my remedy FREE to any of your readers who have consumption if they will send me their Express and P. O. address. Respectfully, T. A. SLOCUM, M. O., 181 Pearl St., M. Y.

A Russian countess arrested in Paris for furious driving, and for striking with a whip the policeman who stopped her, has been able to compromise with the authorities by paying a fine and leaving

English Spavin Liniment removes all hard, soft, or calloused lumps and blemithes from horses, blood spavins, curbs, splints, sweeney, ring-bone, stifles, sprains, all swoolen throats, coughs, etc. Save \$50 by use of one bottle. Warranted the most wonderful Blemish Cure ever known. Sold by W. R. Smith & Co., druggists, Hillsbore, Ohio.

A queer purchase was made in London a few months ago. An "old master" begrimed with dirt was knocked down for £7. It was promptly resoled for £80, and again for £700, and it has now been acquired for £2 000 by a continental gallery, and turns out to be a magnificent Terburg.

German Liniment. A most excellent application for cuts, bruises, sprains, sores and all troubles for which a liniment is of use. Manufactured only by Seybert & Co., druggists, Hillsbore, Q.

OHIO STATE NEWS.

OHIO SENATORS.

Next Ten Years Apportionment—Ryan and
Poe Outvote Gov. Campbell.
The other evening the commission to
apportion members of the general assembly for the ten years beginning with January, 1899, consisting of the governor, secretary of state and auditor of state, finished its labors, and the following is the apportionment agreed upon for the five terms making the fifth decennial period: Senate ratio, 104,924; three-fourths ratio, 78,693.

DISTRICTS	Pop tion	Representation.				
2 and 4	374,578 187,517 124,273	8 1 1	8 1 1	1	1	3 2 1
5 and 6		1	1	1	1	3
7	107,960			1	1	
9 and 14	104,426					100
10	151.046	1	1		å	
11	90,814	1	1	i	ĩ	1

Totals	3,678,816	81	31	37	88	81

The foregoing is the plan submitted by Secretary of State Ryan and agreed to by his vote and that of Auditor of State Poe, Gov. Camp-bell voting in the negative. When Ryan's proposition was submit-ted the governor moved to amend it as follows: That the Ninth and Fifteenth senatorial districts be added to the list of districts, each and severally to be entitled to one senator in each session of the decennial period; that the following joint senatorial districts provided for in said motion be abrogated, to wit: The Ninth and Fourteenth, the Fifteenth and Sixteenth, the Seventeenth and Twenty-eighth, and the Eighteenth and Nineteenth, and that in lieu thereof the following joint senstorial districts be created, to-wit: The Fourteenth and Nineteenth senstorial districts shall form one district, and such district so constituted shall be entitled to one senator in each session, and one additional senator in the fifth session of the decennial period. The Sixteenth and Seventeenth senatorial districts shall form one district, and such district so constituted shall be entitled to one senator in each 'session of the decennial period. The Eighteenth and Twentyeighth districts shall form one district, and such district so constituted shall be entitled to one senator during each ses-sion and one additional senator in the fifth session of the decennial period. The said amendment is offered for the reason that the apportionment proposed by Mr. Ryan does not take into considertion the fact that the joint senatorial districts, as apportioned in 1881, are now segregated and each senatorial district restored to its separate character by the constitution; and for the further reason in that said apportionment does not follow either universal or geographical order in creating joint sen-atorial districts, and destroys, unneces-sarily, the autonomy of the Ninth and Fifteenth senatorial districts. This amendment was voted down by Ryan and Poe and the original proposition agreed to, after which the commission adjourned sine die.

AT Kenton, Judge A. B. Johnson gave his charge to the grand jury regarding the lynching of William Bales, the mur-derer of Policeman Ed Harper, on the 9th inst. In his charge, after recounting the facts regarding the tragedy, the judge held that there was no excuse, no palliation, no extenuation. It was a deed of violence and blood, an act of willful, deliberate, malicious murder; it was the act of cowards; it was an act of slander upon each member of the grand jury, in that it says they would have violated their oaths, and on evidence presented would have refused to indict. He closes with pointing out the duty of the jury to indict all as to whom the testimony is sufficient to show their guilt, without fear, favor or affection.

The charge is the subject of wide-spread comment both for and against.

AFTER a short debate the senate the other afternoon adopted the bill, pro-viding for the distribution of the direct war tax. It provides that the money-\$1,332,025.98—shall be distributed as follows: To the sinking fund, \$1,000,-000; to the general reserve fund, \$888,-025.93. The amount transferred to the sinking fund shall be appropriated only to pay the funded debt of the state as such debts or instalments thereof become due, or can be redeemed, and in case such debts can not be paid or re-desmed before the same become due the amount transferred, or any surplus, shall be invested by the sinking fund trustees as shall be directed by law.

KENTON grand jury failed to indict the Bales lynchers. GEO. NEWMAN, of Miami county, has been elected secretary to the board of managers of the penitentiary, vice Dr.

J. B. McClain, resigned. THE Schulte fire department bill passed the senate and is a law. It raises the salaries of all members of the fire department except the chief. The firemen are to receive \$90 per month, captains from \$105 to \$115 per month

and telegraph operators are to have their pay increased \$10 per month. GOV. CAMPBELL has pardoned John C. Harter, who was received at the penitentiary from Jefferson county in 1883

on a life-sentence for murder. W. J. ELLOTT will be tried at Columbus, May 11, for killing Osborne.
DB. B. W. Davis, an old physician of

Marion, died of pneumonia, aged 78. COUNTY TREASURER BROOKS at Columbus paid into the state treasury \$814,925.98, and drew out for school purposes \$87,739.40.

THE body of Mrs. John Creagan, buried in Rose Hill cemetery, Youngs-town, three years ago, is found com-pletely petrified.

AWFUL DISASTER.

Express and Mail Train on the Lake Shore Road Collide,

Fatally Crushing and Mutilating Nine Persons, Two Engineers, a Fire-man and Six Postal Clerks Being the Victims.

A frightful wreck occurred on the Lake Shore railroad, at Kipton Station, about forty miles west of Cleveland, early Saturday evening, in which six postal clerks and two engineers were killed. The fast mail, No. 14, bound east, collided with No. 21, the Toledo express, just as the latter train was about to pull on the ...iding to let the fast mail pass. The fast mail was running at full speed, and the force of the collision was so great that both engines. three mail cars and one baggage car were completely wrecked. Following is the list of dead: Edward Brown, engineer of No. 21, Toledo, O.; Charles A. Tapliff, engineer of No. 14, Toledo, O.; F. J. Nugent, postal clerk, Toledo, O.; Charles Hammil, postal clerk, Elyria, O.; F. F. Clemens, postal clerk, Cleveland, O.; John J. Bowerfine, postal clerk, Clerk, Cleveland, O.; John J. Bowerfine, postal clerk, Elyria, O.; James McKinley, postal clerk, Conneaut, Ohio. C. H. McDowell, postal clerk, Chilar Graman of No. Elyria, O. — Shaley, fireman of No. 14. Injured: — Danzig, son of section foreman, struck by wreckage and badly hurt. None of the passenger cars left the track, and none of the passengers received serious injuries. It was the custom for these two trains to pass at Kipton, the Toledo express taking the side track for the fast mail, which usually went through Kipton without slackening its speed. The Toledo express was a few min-utes late Saturday evening, and had just come to a stop at the switch when the fast mail came in sight. There is scarcely any curve at the station, but on one side of the track was a line of freight cars, and on the other the station. These might have obstructed the vision of the engineer of the fast mail. He applied the air-breaks when he saw that a collision was inevitable, but the speed of the train was not checked materially. The engine of the Toledo express was knocked squarely across the track, and that of the fast mail reared in the air, resting on the top of the other.

CONSUMPTIVES CURED.

Treatment by Koch's Lymph in Colorade

Pronounced a Success. Koch's lymph for consumptives is a success in Colorado. This is an assured fact. Shortly after his return from Ber-lin, Dr. Josef Meur, of Denver, took fifteen patients under his treatment. They were in the middle and last stages. Sunday all are pronounced permanently cured, with no traces of bacillus remaining. In view of the benefits to be derived out of Colorado's mountain climate, the first exclusive Koch hospital ever built in America was opened there Sunday. This building is a massive one, along the foot hills of the rockies, and erected at an expense of over \$50,000. Among those discharged Sunday was Small, the Chi-cago policeman of Haymarket notorlety, who was recently pronounced as incurable. Now that it has been demonstrated that Koch's treatment in connection with Colorado's climate is a success, a large influx of consumptives is expected.

Millions of "June" Bugs.

Saturday evening about dark a strange phenomenon occurred at Greencastle, Ind. A loud, roaring sound was heard and large black clouds were observed passing rapidly over the city. Upon close observation it was found that the clouds were composed of millions of bugs, about three-fourths of an inch in length. They passed from west to east, and made as much noise as an express train. Several were captured and are pronounced of the "June bug"

More Italians for New Orleans. The steamer Olympia, from Palermo, arrived at the quarantine station, New Orleans, Sunday morning, with 450 Sicilians, who were cast adrift in that city Monday morning from the northeastern wharf.

- Crushed to Death by Cars.

A man named Duvall was crushed to death by the cars while attempting to steal a ride at Rowlesburg, W. Va.

EVERY WATERPROOF COLLAR OR CUFF

THAT CAN BE RELIED ON BE UP Not to Split! TO Not to Discolor! THE MARK

NEEDS NO LAUNDERING. CAN BE WIPED CLEAN IN A MOMENT. THE ONLY LINEN-LINED WATERPROOF COLLAR IN THE MARKET.

Looking out over the many homes of this country, we see thousands of women wearing away their lives in household drudgery that might be materially lessened by the use of a few cakes of SAPOLIO. If an hour is saved each time a cake is used, if one less wrinkle gathers upon the face because the toil is lightened, she must be a foolish woman who would hesitate to make the experiment, and he a churlish husband who would grudge the few cents which it costs.

CLARK MILLS' BIG GIRL

The Model of the Original Statue of Free

One of the points of interest in Wash ington tot generally appreciated is the facetiously and familiarly known as the big girl. Notwithstanding its colossed size it is a beautifully proportioned fig-ure, entitled to artistic admiration, but it has stood at an altitude that prevent ed a clear idea of its clever conception

For years, says the Chicago Post, the model of Freedom, which Clark Mills made after the designs of Thomas Craw-ford, and which, in addition to the Jacks son statue, made him famous as a sculp-tor, lay in bits in an obscure portion of the national museum, and it is only within the last six months that an effort has been made to restore the deserving original to a recognizable form and to give it a place of honor where one may study instead of merely wonder over the

magnificent proportions.

Now the miniature fishpond which occupied the center of the museum building, and near which flirtation couples have often basked in conven-lent seats and watched gilded and vered gambolers, has been converte into the receptacle for the pedestal, she feet high, upon which is being gradually pieced and mounted the old model. It is already the object of curious speculation from countless visitors, who imagine it anything from the statue of Minnehaha to the latter day. Columbia Minnehaha to the latter-day Columbia

Very few take the pains to discover that the piecemeal work of restoring the original "big girl" is being done by the son of Clark Mills, who assisted in making the design. The figure is twenty feet in height and needs only the foregree and hands to complete it. The arms and hands to complete it. The bunch of feathers on the head, which is softened, "haloed," by birds on the dome itself, is a reminiscence of Jeffer son Davis, which is calculated to whe for him a hitherto unexpected estec among patriotic partisans, who have been only-too willing to accept only the odium in which his memory has been odium in which his memory has

When the model was made Jefferso Davis was secretary of war, and it was to him the sculptor submitted the figure with a liberty cap upon the head. To this detail Jeff Davis objected, saying that it suggested that Americans had a one time been slaves. The bunch of feathers, as typical of America, was substituted.

It seems most fitting that so eminent a work of art is at last placed in a conspicuous position where its beauty in all its details may be studied and appreciated, and where the sublimity of both the idea and its conception can bring a glow to the heart of every spec-

STRIKE STATISTICS.

Particulars of the Labor Troubles Occur ring in Recent Years.

The tendency among workmen strike has grown to a very considerable extent in recent years, not only in England but on the continent and abroad In New Zealand the labor party see rather to have obtained the upperhand and it will be instructive to watch developments in order to see the course that will be taken by a temporarily tri-

umphant democracy.
In Germany, says the Chicago Globe, from January, 1889, to April, 1890, it is reported that no fewer than 1,181, strikes took place, nearly half of which -48 per cent.—were in connection with mining industries. In 187 cases ined their d is not difficult to imagine that in a proportion of the whole the strikers were justified in their claims. In 490 cases the men were entirely unsucces ful against their masters, but the fig-ures given cannot, of course, include calculations to show what sums of money were lost by the refusal to work, and how much of this came out of the pockets of the men-or rather was prevented from going into their pockets. There remains 408 cases, and in these compromises were effected-s part of the strikers' demands were conce the remainder withdrawn; and here again in very many instances there ca be no doubt that the men paid dearly for their partial success. The only remedy that can be suggested is a wider recognition of the benefits of arbitration, but the arbitrators must be hones men who really seek to settle the dispute with a due appreciation of what is fair and honest to both sides.

In Germany the professional agitate is usually, or at least frequently, at the bottom of the mischief. He may be playing for a money stake obtainable by the distribution of funds or otherwise, or he may have parliamentary, or other ambitions which he thinks will pay better in the long run. Love of notoriety and prominence is another moving factor, and if such a person is appointed to represent the men the chance of settlement is small, seeing that very often discord pays so much better. A few notorious agitators ar honest, but it is to be feared that they are black swans.

In what was at one time a great bor or swamp a resident of Kendallville. or swamp a resident of Kendalivian or swamp a resident of Kendalivian Ind., some days ago while running a ditch exhumed several perfectly predicts a latent of deer found just an indicate the state of the s served akeletons of deer found just the creatures mired, possibly bundre of years ago. One head was found wi outspreading antiers of great size, t length of the horn being forty-eig inches and the measurement from to tip forty-one inches. Close to head the circumference was twelve inches, from the head fifteen inches. The horn is black, glistening in the sun-light like polished ivory. It is regarded as an extremely valuable specimen.

A Three-Legged Man

A native of Bavaria, now in Americ three separate legs, each of which is entirely independent of the other. In his youth he was able to use all of his legs in walking or running, but having sustained injuries in a railway accident he is now obliged to wear one of them strapped to his body. He enjoys excel-lent health and earps a living as a wood.
